

NO FINANCE BILL
IS YET PREPAREDSENATE COMMITTEE NOT
READY TO REPORT.

The Silver Men Consider Free Coinage Substitute and Republicans Work on Tariff Bill—Senator Sherman's Views on the Situation—General News of the Capitol.

Washington, Jan. 4.—The senate finance committee did not conclude its consideration of the house bill Friday. The failure was because the silver majority of the committee was unable to agree upon the terms of the substitute which they propose to report for the house bill. The members favorable to silver, including Senators Voorhees, Harris, Vest, Jones of Arkansas, and Walthall, democrats, and Jones of Nevada, populist, were in conference for an hour before the full committee met, but they found the task of preparing a bill to which all could agree somewhat more complicated than they anticipated, and were compelled to ask for more time.

SENATOR SHERMAN'S VIEWS.

Ohio Statesman Delivers His Speech on Financial Affairs.

Washington, Jan. 4.—In the senate Friday, Mr. Morrill (Rep., Vermont), chairman of the finance committee, made a brief but important announcement. He moved that when the senate adjourn it be until Tuesday next and in this connection he said: "I hope that by Tuesday, when the senate reassembles, the finance committee will be ready to report on both the tariff and bond bills passed by the house." The motion for an adjournment until Tuesday was agreed to. Mr. Squire offered a resolution for the negotiation forthwith of a convention between the United States and Great Britain for making the boundary line between Alaska and British North America, and appropriating \$75,000 for expenses. The resolution was referred.

Mr. Butler (Pop., N. C.) asked immediate consideration of a bill "to prohibit the issue of interest-bearing bonds." Some objection was made, and the measure was temporarily withdrawn.

Mr. Sherman then delivered his long-expected speech on financial affairs, treating in particular of the tariff and bond issue. "The President," said Mr. Sherman, "has mistaken the cause of our present financial condition in attributing it to the demand for gold for United States notes instead of the deficiency of revenue caused by the legislation of the last congress. He places the effect before the cause. He proposes as a remedy the conversion of the United States notes and treasury notes into interest-bearing bonds, thus increasing the interest-bearing debt nearly \$500,000,000.

"What other cause can be stated than that unwise legislation reduced our revenues below our expenditures, impaired confidence in our ability to maintain our currency at par, and compelled the government to sell bonds provided for the redemption of United States notes in order to meet deficiencies? What other remedy is there for our financial difficulties except to borrow money on the best terms possible to pay current deficiencies and to provide additional revenue for future wants? To this extent and for these purposes I am willing to support this administration however much I may disagree with its general policy.

"Notes once redeemed should only be reissued for gold coin, and such reissue should be mandatory when coin is deposited in the treasury. With this provision of law the scarcity of currency would create such a demand for it that gold will be freely deposited in exchange for the more portable and convenient notes of the United States. The resumption fund should be segregated from all other moneys of the United States and paid out only in redemption of United States notes. With such provisions in the law the resumption fund could not be invaded to meet deficiencies in the revenue. They should be provided for by bonds or certificates of indebtedness of small denominations at a low rate of interest, which would be readily taken by the people through national banks, sub-treasuries, and postoffices."

In conclusion Senator Sherman said: "A careful study of the system of banking, currency, and coinage adopted by the principal nations of Europe convinces me that our system, when cured of a few defects, developed by time, founded upon the bimetallic coinage of gold and silver, maintained at par with each other, with free national banks established in every city and town of importance in the United States, issuing their notes, secured beyond doubt by United States bonds or some equivalent security redeemable on demand in United States notes, and the issue of an amount of United States notes and treasury notes equal to the amount now outstanding, with provision for a ratable increase with the increase of population, always redeemable in coin, supported by an ample reserve of coin in the treasury, not to be invaded by deficiencies of revenue, and separated by the sub-treasury system from all connection with the receipts and expenditures of the government—such a system would make our money current in commercial circles in every land and clime, better than the best that now exists in Europe, better than that of

Great Britain, which now holds the purse-strings of the world.

"I may on some proper occasion hereafter give the reasons for my faith in our present financial system. All I ask now is that you will not disturb it with your deficiencies, you will not rob it of its safeguards, you will not return to the days of wild-cat money, you will not lessen the savings of prudent labor or the accumulations of the rich. Time makes all things even. Let us give to the executive authorities ample means to meet the appropriations you have made, but let us strengthen rather than weaken our monetary system, which lies at the foundation of our prosperity and progress."

Mr. Mills (Dem., Texas) then took the floor to reply to Mr. Sherman. He repelled the charge that the fifty-third congress was in any way responsible for the present financial crisis. The burden belonged to the fifty-first congress, and Mr. Sherman was partly responsible for the legislation of that congress. The Democrats had turned over to the Harrison administration in 1889 \$230,000,000. How was it, if the claim that the McKinley bill had produced sufficient revenue was true, that in 1893, when the Democrats again assumed control, all that surplus was gone, consumed, and dissipated?

Mr. Sherman's resolution was temporarily laid aside and that of Mr. Elkins (Rep., W. Va.) directing the disposal of the bonds by public sale, was taken up. Mr. Elkins spoke vigorously in its support. He reviewed the commissions paid for floating loans during the war, to show the enormous extortion of the syndicate who had taken up the loans of the present administration. Only about \$5,500,000 had been paid in commission on loans aggregating \$2,500,000,000 during the war. In other words, if reports were to be credited, the bond syndicate had made more in placing a loan of \$62,000,000 than was paid for floating the entire war debt. The war loans were floated among the people, as all loans should be. It was said that one banker was to obtain \$1,000,000 commissions for floating the contemplated loan of \$100,000,000. He did not mean to criticize the president, the secretary of the treasury, or the syndicate, which was simply taking advantage of an opportunity, but he insisted that the people would take these bonds at much higher figures than those paid the government. The credit of the country was unassailable. We were immeasurably the richest country of the globe. The Rothschilds, the Morgans, and the money changers of the world should not have us by the throat.

In conclusion Mr. Elkins moved that the senate proceed with the consideration of his resolution.

Mr. Hill sought to object, but was cut off by the vice-president's ruling that the motion was not debatable. Thereupon the vote was taken, resulting, yeas 48, nays 6.

A spirited debate followed, participated in by almost every senator on the floor. Mr. Teller referred to the integrity of the bond sales of 1878. There had been no public scandal over any bond sale up to 1895. He then compared the results of the bond sales of 1877-78 with those of 1895, asserting that great losses to the government occurred under the contract last year. There should be no secret, private contracts as to bonds. The senator denounced the "imbecility or dishonesty" of the executive branch in making this secret contract. It amounted, said Mr. Teller, to a misappropriation of public funds, and the public would so judge the past and the coming transaction.

Mr. Hill replied that this talk of allowing the public to take the bonds was for political effect; it smacked of demagoguery. At this point Mr. Hill paid a tribute to Secretary Carlisle, repeatedly calling him by his full name—John G. Carlisle—which attracted marked attention.

"Imbecile, incompetent, dishonest, is what we hear," said Mr. Hill. "John G. Carlisle incompetent! One of the greatest public men that this country ever produced. John G. Carlisle dishonest! And yet thirty years in public life and a poor man today, living on his salary. Imbecile, dishonest, is what we hear hissed across the senate."

Mr. Caffery (Dem., La.) sharply responded to Mr. Teller's assertion that the administration was imbecile or dishonest. Mr. Teller said he would make it "incompetent or dishonest."

Mr. Caffery also responded to Mr. Hoar's criticisms on the decadence of Southern integrity. At least, said Mr. Caffery, the Southern men did not add hypocrisy to their public action in order to secure a petty party advantage and indirectly to stab the sound-money cause they pretended to espouse.

At 5:15 o'clock Mr. Aldrich rose to state that as it was apparent no vote could be reached tonight, he would move an adjournment.

Mr. Elkins demanded a roll-call, and there was a chorus of seconds to his demand. On the call the senate voted 27 to 26 to adjourn.

House Has a Five Minute Session.

Washington, Jan. 4.—The session of the house Friday was short. The chaplain offered prayer, the journal was read and approved, a message was received from the senate and then the house adjourned until Monday next.

Chairman Dingley of the ways and means committee introduced his seal fisheries bill. If the modus vivendi be not concluded and put into operation for this year's sealing season the secretary of the treasury, with the approval of the president, is authorized to take and kill every fur seal found

THE TRADE REVIEW
BY DUN & COMPANYRECORD FOR 1895 SHOWS A
DECREASE IN FAILURES.

R. G. Dun & Co.'s Report Notes Remarkable Changes in Produce Markets—Speculation Has Seriously Affected Cotton and Wheat Exports—The Report as Made in Detail.

New York, Jan. 4.—R. G. Dun & Co.'s Weekly Review of Trade says:

"The commercial failures during the complete year 1895 number 13,197, against 13,885 in 1894, but the aggregate of liabilities is slightly greater, \$173,196,000 against \$172,992,856, so that the average per failure is \$13,124, against \$12,458 in 1894.

"The bright promise offered by a large decrease in the first quarter was followed by a small increase in the second and third quarters and a large increase in the last quarter of the year. In that quarter also the deferred liabilities to each firm in business increased, and also the proportion of deferred liabilities to payments through clearing-houses.

"Remarkable contrasts are shown this week in prices of materials and manufactured products. Compared with Jan. 1, 1895, prices of manufactured products and of materials rose for pig iron, 75.1 per cent at the highest point, but only 9.1 at the close, while manufactures of iron rose 53.7 at the highest point and 23.5 at the close, anthracite coal rising 15.3, but closing 5.6 per cent lower than Jan. 1, 1895. Cotton rose 64.7 per cent at the highest point and 47.1 per cent at the close, but cotton goods only 16.8 per cent at the highest, and 14.5 at the close. Hides rose 75.5 at the highest point and 13 at the close, leather 48 at the highest and 21.4 at the close, and boots and shoes 27.9 at the highest and 12.6 at the close. Wools rose 7.7 at the highest point and 6.9 at the close, but woolen goods rose only one-eighth of 1 per cent at the highest point, closing a shade weaker. Silk, 14.3 at the highest point and 10.7 at the close. The comparisons cast much light on the depression and increase in failures during the last quarter.

"Produce markets have been the theater of surprising changes, which have influenced all business. The acreage in cotton was wisely restricted, in order to give producers a better chance for fair returns, and the crop was further reduced to some extent by injury, but growers were injured still more by frantic speculation, which checked exports, and by false information and advice.

"Wheat producers suffered in like manner from wild speculation, which prevented the exporting of many million bushels, and false reports, which encouraged farmers to keep back their grain until the cream had been taken off the market by speculators. The inevitable consequence has been a very low range in prices, the yield being clearly in excess of all demands, while Atlantic exports for the last five weeks, flour included, have been 9,411,250 bushels, against 9,703,673 last year. The great crop of corn has materially affected the prices of meats."

THE ALASKAN BOUNDARY.

Gen. Duffield Presents the Report—No Serious Dispute Likely.

Washington, Jan. 4.—General Duffield, the chief of the coast and geodetic survey, yesterday presented to the secretary of state the joint report upon the Alaskan boundary which was agreed upon by him and the Canadian representative, Mr. King, at their meeting at Albany this week. The report probably will not be made public until it is transmitted to congress, but it shows a practical agreement between the surveys of the two governments and may have the effect of partially quieting the apprehensions of trouble over the boundary. In view of the results of the two surveys General Duffield does not hesitate to express the opinion that there can be no serious dispute between the United States and Canada over the boundary. He is confident that the British can find no grounds upon which to base a claim to the gold fields of the Yukon river.

Public to Have the First Chance.

New York, Jan. 4.—A special to the World from Washington says: "Secretary Carlisle will at once issue a full statement to the public on the bond question. It will almost undoubtedly announce that the president will order a public loan. This information comes from a source which makes it impossible to question its truth. The exact terms of the statement are still unsettled, but the chances are 10 to 1 the loan will be offered to the public first. If that call fails, the government will fall back on the syndicate. The bond call had been arranged for Monday."

Wrecked by an Open Switch.

Meadville, Pa., Jan. 4.—Erie train No. 5, the New York and Chicago vestibule limited, while running forty miles an hour, struck an open switch and collided with a locomotive in the New York and Pennsylvania yards here yesterday. Fifteen persons were hurt, among them: Adams, Mrs. Cyrus, New York; Harris, Mrs. S. E., New York; Johnson, Richard, engineer.

All the injured continued their journey in charge of one of the surgeons of the railway company.

JAMESON IS KILLED
BY ANGRY BOERSBRITISH LEADER SHOT BY
THE ANGRY NATIVES.

Alarming Rumors in Circulation in London—Emperor William Congratulates President Kruger on His Victory—Uprising Predicted in Johannesburg.

London, Jan. 4.—The Evening Standard says it is rumored that Dr. Jameson was shot yesterday after a drumhead court-martial.

All kinds of rumors were current in the streets about the stock exchange, one being to the effect that Dr. Jameson had been tried by court-martial and shot. But as the government is in control of the telegraph wires very little news is obtainable. Several firms like the Rothschilds have advised their correspondents in South Africa, but they refuse to publish them.

The latest story circulated was that the second body of men belonging to the British Chartered company, numbering about 400, which, it was said, had started out to re-enforce Dr. Jameson's troops, had been cut to pieces by the Boers. This is the force which is supposed to have been advancing from Bulawayo.

It was also rumored on the stock exchange and seemingly confirmed by a dispatch here that there has been an uprising in Johannesburg. It was added that many persons were killed during the disturbance.

Sir Ellis Ashmead-Bartlett is quoted as saying that he has heard that German sailors have been landed at Delagoa bay.

The Globe this evening says it is believed that Dr. Jameson's officers included Capt. Charles Bohn Coventry, second son of the Earl of Coventry, whose eldest son, Viscount Dehurst, married Miss Virginia Bonyng of New York, and his two brothers, Henry T. Coventry and Reginald W. Coventry. Capt. Coventry is an officer of the Bechuanaland police. Dr. Jameson's other officers are said to include Lord Annaly, a captain in the Scots guards, and Lieut. Douglas Henry Marsham, a son of the Earl of Romney, who has been serving with the Bechuanaland police.

BRITISH PRESS OPINION.

German Emperor's Dispatch to President Kruger Is Condemned.

London, Jan. 4.—The colonial office remained open until 2:30 o'clock this morning. Many officials were there, but no further news from Transvaal was received.

Emperor William's dispatch to President Kruger is denounced with the utmost severity in the editorials in English newspapers. The Times says: "It is grave and distinctly unfriendly, and being compiled after conference with Chancellor von Hohenlohe and the foreign naval secretaries imparts to it the importance of a state act."

The article proceeds to argue that Germany has no ground to contend that any doubt exists as to England's right of suzerainty over the Transvaal, and says: "Is our Berlin correspondent indeed right when he confesses that he is driven to the conclusion that Germany has gladly seized this opportunity to humiliate England?"

The Post says: "It is evident that the Emperor considers war with England something to be prepared for. We cannot hide from ourselves that England stands alone. The proper reply to the Emperor's telegram is the recall of the Mediterranean squadron to join the channel squadron."

The Standard similarly gives Germany to understand that England will brook no interference between herself and the Transvaal.

The Daily News, the Liberal organ, on the contrary, says: "There is nothing hostile in the Emperor's words. They are a warning which is sorely needed in some quarters that the encouragement of filibusters is playing with edged tools. England has no right to interfere with the internal affairs of Transvaal."

KEESER'S HIS NEWS SECRET.

London Editor Has Important Dispatches from the Transvaal.

London, Jan. 4.—Editor Hess of the South Africa Critic says he has a cable dispatch referring to the recent events at Johannesburg, sent since Dr. Jameson's defeat and of such a grave nature that he declines to publish it until confirmed from other sources.

Hess has had a long experience in the Transvaal and his previous news regarding the present crisis in affairs there has all been accurate. In the course of an interview he was quoted as saying: "If Johannesburg is the same town I knew the city has risen and has either succeeded or failed in an attempt to liberate Dr. Jameson. I am satisfied that all the foreigners there, including the Americans, would help the English. There are practically no Boers at Johannesburg except the armed burghers who are parading the streets." Beyond this Mr. Hess declined to talk but it was inferred from his manner that he had word of a rising at Johannesburg.

William Congratulates Kruger.

Berlin, Jan. 4.—Emperor William has telegraphed to President Kruger as follows: "I express my sincere congratulations that, with your own peo-

ple and without appealing to the help of the friendly powers, you have succeeded by your own energetic action against the armed bands which invaded your country as disturbers of the peace, and have thus been enabled to rest in peace and safeguard the independence of your country against attacks from outside."

REBELS NEARING HAVANA.

Martial Law Proclaimed in Two Provinces—Havana in a Panic.

Havana, Jan. 4.—The authorities confess the grave condition of affairs by proclaiming martial law for the provinces of Havana and Pinar del Rio.

Maximo Gomez has declared his purpose to penetrate into the province of Pinar del Rio.

Although his forces have not reached the borders of that province, the action of the authorities is understood to indicate that they have no hopes of preventing him from carrying out his threat.

The insurgents are apparently making a swift advance directly upon this city. The advance guard of their cavalry under Gen. Loret was, at latest accounts, at Tapaste, which is only eighteen miles from Quanaabacoa, the latter being a suburb of Havana, five miles from the city, where a bathing beach frequented by the citizens of Havana is located.

So far as is known, Gomez is still operating in the region about Guines, with a large force of insurgents, and nothing has been learned of the movements of that wing of the insurgent army that indicates an immediate movement to co-operate with Bandera in a direct attack upon Havana. It is believed that Bandera is simply planning a demonstration against the capital to divert attention from Gomez and the southern wing, while that general completes the work of destruction in the cane fields of Havana province or makes a dash into Pinar del Rio. This city is in a state of panic.

MET A TERRIBLE DEATH.

Secret Service Officer Killed by Indiana Counterfeiters.

Rushville, Ind., Jan. 4.—The cabin abandoned two weeks ago by the Carson gang of counterfeiters, seven miles south of this city, burned Thursday night. The unrecognizable remains of a man were found in the cellar. No one is missing from this neighborhood and the officials find it impossible to identify the victim. The general surmise is that the man was a secret service detective who had got in with the Carsons for the purpose of securing evidence. They were aware of who the man was and took him to their cabin. Once inside the three brothers are supposed to have overpowered the detective, placed the handcuffs on his hands, and then throwing him into the cellar the cabin was fired and the man left to a death of horrible torture. Sheriff Wilson says he will spare no means to apprehend the Carsons, as he thinks they committed the murder.

PROBLEM FOR "GOOD FIGURERS"

It Has "Stumped" Bankers, Teachers and Expert Bookkeepers

"Here is a problem that is driving the bankers, teachers and bookkeepers crazy," said Superintendent of Schools Mayne. "It was referred to me by the president of the First National bank. No two men in that institution got the same answer, and nine differed from them all. Many of the city teachers have also figured on it but without success. The proposition was made to the bank by a farmer and perhaps some of The Gazette readers can enlighten us on how to figure it."

This is the proposition:
"A man has a mortgage for \$4,000; to run nine years; and bearing 5 per cent interest payable annually, which he wants to sell. What should he be paid for it, in order that the buyer may realize 6 per cent annually on his investment?"

MANUAL TRAINING IN THE SCHOOLS

BOARD OF EDUCATION VOTE FOR THE MOVE.

Can be Run Inside The Appropriation Made by the State and Stopped When it Cost too Much—Janitor Thomas King's Resignation Accepted—Other Business.

The board of Education last night voted to introduce manual training to the Janesville schools; the resignation of Thomas King was accepted; a number of bills were paid; and considerable routine business was transacted. Commissioner McLean was the only absentee. The journal was read and approved. The clerk's monthly statement showed that \$6,463.10 was due Clark & Stewart and the amount on hand was \$17,459.29. Commissioner Clemons of the finance committee reported in favor of paying bills amounting to \$312.42 and the report was adopted.

President Goldin said the special committee had not found time to look into the need for a school at Spring Brook but that the matter would be attended to.

COMMISSIONER F. L. CLEMONS.

[WHO MADE THE MOTION.]

He thought a report should be made to the council and let that body act.

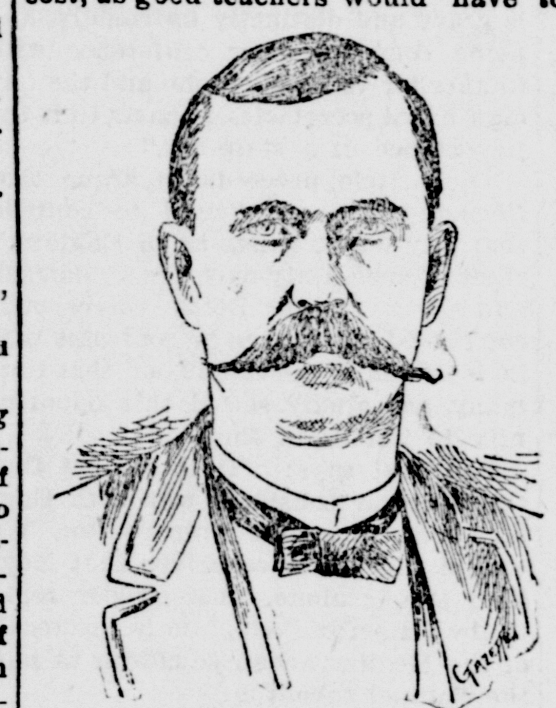

Superintendent D. D. Mayne who had been instructed to prepare a two years' course in manual training presented the following plan.

First year—Drafting and bench work. Second year—Drafting and lathe work in wood.

Discussion Followed.

Considerable discussion followed. Commissioner Shearer advised moving slowly, but Commissioner Clemons stated that he thought the appropriation of \$250 from the state would run the department so he moved the adoption of the report.

Commissioner Cunningham was against the motion on account of the cost, as good teachers would have to

COMMISSIONER J. CUNNINGHAM.

[WHO OPPOSED THE MOTION.]

be employed, etc., and many families were burdened to pay their share now.

Commissioner Shearer explained that the course could be discontinued if it became too expensive, and when Commissioner Clemons' motion was put, all voted aye except Commissioner Cunningham.

The resignation of Thomas King as janitor of the new High school was, on motion of Commissioner Cunningham, accepted, all voting aye. Mr. King asked for \$60 a month for himself and \$30 for a helper ten months a year, and \$75 a month the other two months. L. S. Dudley, Benj. Nelson, Louis Gosslin, Walter Houghton, Lewis Hill and others have applied for the place, and the matter is now in the hands of the building committee.

Commissioner Clemons moved that the finance committee be instructed to secure \$7,500 insurance on the new high school boiler at a rate of one per cent for three years which motion prevailed.

H. F. Kellar was instructed to make out an insurance policy, after he had addressed the board, and the meeting then adjourned.

DRESS
GOODS

25c for any piece of dress goods that was included in the late 29c lot. At 29c they are better value than we ever offered before. At the 25c price they cannot remain long with us. 25c is simply an excuse of a price for such dress goods; it is not giving them away, but it is mighty near it.

33c We had 125 pieces laid out, dress goods worth from 50c to 65c, and they were what you have seen advertised at 36c. To encourage quick selling we have reduced this lot to 33c. Your own judgment will tell you, as soon as you see them, that it is a figure that can only last for a short time. Now is the golden opportunity.

59c Stop and consider what it means. Read the price over and over. Couple it to the Dress Goods you saw on the 64c table, down from 80c, 90c and \$1.00. The extra fine Serges, Henriettas, Chic Novelties, Iridescent, Fine Checks &c., 45 to 50 inches wide. It is an offering that we can probably never make again.

BLOCKING THE RIVER'S COURSE

Much Refuse Dumped in the Stream Near the Bridges.

EDITOR GAZETTE:—Thirty years ago when we were a country village, as it were, I can remember that a number of people were fined for dumping stuff into the river. Now when we are of some sort of importance as a city, there seems to be attention whatever paid to the scandalous and outrageous practice of making our otherwise beautiful river the dumping place for all, and every conceivable nuisance.

I remember a Dr. M. who brought in a load of onions, which he could not sell or give away, so he just dumped them into the river at South First street. He was fined five dollars, and had to get nearly all the onions out again. Another time a man who will read this, brought a load of straw to town. He could not sell it, so he dumped the load into the river. This man, too, was fined five dollars, and worked nearly all day in reloading. This was over thirty years ago.

Now what is the practice? The stores on the bridge keep the river full of floating boxes, paper, straw, hay and excelsior. Complaint has been made to the city marshal and a notice given in The Gazette. Still the nuisance continues to the detriment and damage of persons who live upon the east bank of the river. A day or two ago there was straw frozen in the ice in the center of the river from the bridge to below the jail—a wagon load nearly of good, useful straw. Now I give the last warning to the stores on the bridge. I have half a dozen good respectable witnesses and want the city authorities to stop the outrage at once.

DR. WM. HORNE.

Attention B. of R. R. T.

DANGER AHEAD

A Simple Case of Piles. The Forerunner of Incurable, Fatal Rectal Diseases.

A NEW PILE CURE

Which Cures Every Form of Piles Without Pain or Inconvenience.

The ordinary case of piles is one of the commonest afflictions of humanity. While they are extremely annoying, yet men and women will endure them for months and years, off and on, because they are not immediately fatal, and as long as they can get around and perform the daily duties of life they suffer on in the hope that in some way or other the trouble will pass away of its own accord, without any other treatment than a little salve or ointment occasionally. Now in the very nature of the disease this will never happen.

It is absolutely certain to grow worse passing away for a time and returning, until before you are aware of it, an ulcer has formed and the beginning of the much dreaded fistula has been made and then, what was at first a simple case of common, everyday piles becomes an even chance between life and death. A surgical operation, with all its attendant horrors, uncertainties and danger to life, becomes necessary.

Although the Pyramid Pile Cure is just as valuable in the advanced stages of rectal disease, yet the time to use it is at the beginning. A single package will then effect a complete cure in nearly every instance, in fact two or three applications often do the work. The Pyramid Pile Cure is well known to be a certain cure for Piles in every form, but we take pleasure in publishing the experiences of sufferers, especially when such commendation is entirely unsought by us. Mr. H. H. Hoffman, of Huntington, W. Va., writes:

I have used your Pyramid Pile Cure and consider it a perfect remedy for Piles. If you want an agent write me your terms and I can do some good work for you as everybody here knows how badly I suffered and they also know I am now entirely cured.

From Mrs. S. E. Deitzler, Union Deposit, Pa.: Please accept thanks for your Pyramid Pile cure. It has done me such great good in so short a time and at so little expense.

From Mrs. Nancy W. Shaw, La Crosse, Wis.: I am more than pleased with the benefit I have received from the Pyramid Pile Cure. I needed but one package. I shall write you again soon.

From R. Witherell, Shoreham, Vt.: The package of Pyramid Pile Cure I received last November has entirely cured me of itchy piles. I have tried various remedies for over forty years. I shall always keep a package of this splendid remedy on hand. There are others I think would be glad to try it, when I can see them and tell them what it has done for me. Accept my heartfelt thanks.

Letters like these are daily received by the Pyramid Pile Cure of Albion, Mich., who manufacture this remedy. It is sold by druggists everywhere at 50 cents and \$1.00, and every druggist has a good word to say for it as they know better than anyone else the satisfaction it always gives to their customers.

THIS DAY IN HISTORY.

1636—The Marshal Due de Luxembourg, famous French general, died; born 1628.
1780—Benjamin Lundy, philanthropist and abolitionist, born in Warren county, N. J.; died 1839. Lundy established an antislavery association in 1815. He published an abolition paper in Baltimore. Among other means of suppressing slavery he advocated the boycott against all products from slave labor.
1877—Commodore Cornelius Vanderbilt died; born 1794.
1883—John William Draper, M. D., American philosopher writer, died; born 1811. Dr. Draper was a native of England. His most noted works were "History of the Civil War in America" and "A History of the Conflict Between Religion and Science."
1894—Elizabeth Palmer Peabody, American educator and reformer, died in Boston; born 1805.

THE PUBLIC CREDIT.

There is manifest truth in the assertion of Chairman Dingley that "It is as impossible for a government to have a continuous deficiency of revenue for two years and a half without affecting its financial standing as it is for an individual." Such a method of doing business is contrary to sound principles, and the result is sure to be injurious. The borrowing of money in a time of peace to pay ordinary public expenses indicate bad management and tends to create the kind of distrust that hurts credit more or less. But this does not mean that our government is approaching the brink of bankruptcy. The shortage of revenue, the depletion of the gold reserve, and all other sources of misfortune do not mean that the national credit has been seriously depreciated, and that there is any cause for alarm about our ability to maintain that credit against all adverse influences. Our government securities have a high standing in all the markets of the world, because they are known to be backed by ample resources and by an honest purpose to pay dollar for dollar. There is not the least question about their value and nobody who has money invested in them is at all anxious to dispose of them but nevertheless the first thing to be done is to increase the revenues of the nation so that further issues of securities will be unnecessary.

NOT A PARTY MEASURE.

It is estimated that the Dingley bill would yield about \$40,000,000 revenue a year. This is slightly in excess of what the deficit will probably be if the bill fails to be enacted. As the bill is not a republican measure, and as it is designed to be only temporary in its operation, it is hard to understand how the democratic senators or the democratic president can, with any sort of reason, oppose it. There is still ground for the hope that if it passes the senate in its present shape it will be signed.

Republicans do not believe that bonds ought to be issued in time of peace, but so long as the democratic administration and congress have made their issue necessary, the republicans want them issued as cheaply as possible. More than one hundred millions of dollars would have been saved in interest by the people of the United States if the bonds issued by the Cleveland administration had been issued under a bill similar to the one that has been passed by the republican house.

Probably the worst insult ever offered to a secretary of state was the publication of a story charging Secretary Olney with having written a private note to Lord Salisbury, assuring him that this government meant nothing by its utterances on the Venezuelan question.

And German financiers are also anxious to buy United States bonds. It isn't surprising that the financiers of all the world should be willing to invest in our bonds. They all know with the republican party about to return to power these bonds are gilt-edge investments.

Recent utterances on the part of certain college professors ought to open the eyes of some people to the danger of employing Englishmen or American with English proclivities, to teach young Americans.

The New York Herald, which is trying to boom Cleveland for a third term has offered to give \$10,000 towards securing the democratic convention for New York. Is there any connection?

It is hoped that the battle-ship Kentucky will escape the hoodoo that has followed the Texas.

What did Mr. Cleveland do with that enquiry of the house about those an-

ti-American speeches made by Ambassador Bayard?

Lord Dunraven ought to be the meekest Englishman of them all just now.

Danger Signals

More than half the victims of consumption do not know they have it. Here is a list of symptoms by which consumption can certainly be detected:—

- 1. Cough, one or two slight efforts on rising, occurring during the day and frequently during the night.
- 2. Short breathing after exertion.
- 3. Tightness of the chest.
- 4. Quick pulse, especially noticeable in the evening and after a full meal.
- 5. Chilliness in the evening, followed by a slight fever.
- 6. Perspiration toward morning and pale face and languid in the morning.
- 7. Loss of vitality.

If you have these symptoms, or any of them, do not delay. There are many preparations which claim to be cures, but Dr. Ficker's English Remedy for Consumption has the highest endorsements, and has stood the test of years. It will arrest consumption in its earlier stages, and drive away the symptoms named. It is manufactured by the Acker Medicine Co., 16 and 18 Chambers St., New York, and sold by all reputable druggists.

CUT RATE ON BUMS CANNOT BE UPSET

THE COUNTY BOARD ACTION
WAS LEGAL.

The Supreme Court Has Passed on the Point and Says the Supervision Can Take Such Steps—Some Officers Wanted a Test Case Tried.

The new resolution of the county board, by which the fees of officers and magistrates for the arrest and prosecution of tramps, etc., has caused a good deal of discussion among the persons interested, and it has been said that officers in the southern part of the county have been planning to bring suit to see if the resolution passed by the supervisors would "hold water." The edict was issued for the purpose of protecting the county against a possible imposition in such prosecutions, and was passed in accordance with chapter 250 of the laws of 1895, in which act the legislature authorized the county board to fix the fees of magistrates and peace officers for services performed in such prosecutions. By its provisions the fees in the cases covered by it, were reduced about one-half. Many questioned the legality of the act, but all this has been set at rest.

Test in Outagamie County.

In 1887 the legislature passed a law with provisions similar to those of chapter 250 of the laws of 1895, regarding prosecutions of tramps and authorizing the county boards of the several counties to fix the fees of magistrates and peace officers in such prosecutions. In accordance with such law the county board of supervisors of Outagamie county, passed a resolution, in and by which they provided "That hereafter no sum exceeding two dollars in case of arrest or conviction or acquittal of tramps will be allowed."

After the passage of this resolution, a justice of the peace of Outagamie county presented a bill to the county board of that county for his fees in certain prosecutions mentioned in the resolution referred to. His fees in those cases amounted to \$3.08.

Supreme Court's Ruling.

The board refused to allow the bills as presented, but allowed the justice \$2.00 in each case, the amount fixed by the resolution. From this decision of the county board, the question was appealed to the circuit court and from the circuit court to the supreme court, in both of which courts the decision of the county board was sustained. The supreme court held that the legislature had the right to delegate to the county board the right to fix the fees in such prosecutions; that the law authorizing the county board to fix the fees was constitutional, and that in passing the resolution referred to, the board had effectively exercised the authority granted to it by the legislature.

This decision seems to settle the whole matter, and as one officer expressed it "the cut rates go."

USED ANTI-TOXINE WITH GOOD RESULTS

HEALTH OFFICER GIBSON'S
REPORT IS READY,

Physicians Who Utilized the New Remedy and Those Who Did Not—The Cases of Contagion Handled in the Past Year—Diphtheria Most Prevalent.

The report of Health Officer James Gibson covering that part of the year 1895 since the first of April has been made out. It says that the city as a whole has been in a healthy condition. The most prevalent disease has been diphtheria. From April 1 to Jan 1 there have been fifty-five cases of contagious diseases, seventeen of which were scarlet fever and thirty-eight diphtheria. Of the scarlet fever victims twelve were male and five female; while of the diphtheria patients sixteen were male and twenty-two female. None of the scarlet fever cases were fatal, but the diphtheria caused five deaths. In most of the thirty-eight diphtheria cases, anti-toxine has been used and that it is a good remedy there is little doubt in the minds of the majority of local physicians.

What the Remedy Did.

Anti-toxine was used in three of the five fatal cases, but in most of the thirty-eight cases it was used, and with excellent effect. The physicians who used the anti-toxine are Drs. R. W. Edden, Q. O. Sutherland, James Mills, J. F. Pember and E. H. Dudley, while those who have had severe cases and who have been successful without its use, were Drs. J. B. Whiting, Jr., E. F. Woods, W. B. Metcalf, E. E. Loomis, George G. and George W. Chittenden and Charles L. Clark. The city is now free from diphtheria, with the exception of the Seaverns family on Linn street, where the case is a mild one.

"There has not been as much diphtheria in town in a number of years," said Health Officer Gibson. "This has not only been true of Janesville but of the surrounding cities as well. There seems to have been a general epidemic throughout the country."

SENTENCED TWICE.

Smashed a Sewing Machine in Wau-pun and Has a Year Added to His Term in Consequence—Sent up For Robbing T. Dumphy—Mrs. Mulligan Locked Up.

J. William Bates, the big negro who stole Farmer Dumphy's watch and was chased six miles down the railroad track by Dumphy, has more state's prison sentences on hand than he knows what to do with. He was sent to Wau-pun for stealing the watch, but tired of making shoes and put one of his No. 18 feet against a sewing machine, smashing the machine to fragments. He expected about two days on bread and water as punishment, but the warden took him to a police court just outside the prison walls, and had a full year added to his sentence. When his Janesville term is ended, therefore, he will go right ahead with a Wau-pun sentence without any bother about changing his cell or being measured for new clothes.

Mrs. Mary Mulligan, who had a Monterey "jag" on, was landed in jail last evening by Chief Acheson, who found her raising Ned at a private residence. Mrs. Mulligan had no shoes on, and was suffering from the cold.

 The Potato—No, I'm only good for food. They burn you in one part of the stove in order to bake me in the other.—Chicago Tribune.

 Though she adored another—
 That other was herself.

He Was Hired.
 Mr. Underwrite—So you want a job driving one of my coal teams, eh? Are you a saving man in your way?

A Sorrow's Crown of Sorrow.
 "Yes, her married life was very unhappy. She suffered untold misery."
 "Ah, that must indeed have been intolerable."—Bay City Chat.

KEELEY CURE.

To the Public:

Some so called Institutes for the cure of drunkenness envious of the record we have established, are spreading reports calculated to deceive the public and which are to the effect that branches of the genuine Keeley Institute are established in various parts of the state. We are also informed that agents of some fake institutes are doing business by making misleading statements. For the protection of the people of Wisconsin we desire to announce that we employ no agents whatever and are responsible only for patients treated at our Ripon, Wis. and Waukesha, Wis. Institutes. We point with pride to the fact that out of 275,000 patients so far treated by the genuine Keeley Method used by us, not one case has gone wrong. We challenge the world to bring up a patient who has taken the Keeley Cure at any of our Institutes and has been killed or even injured as has been the case with patients of some other institutes. Our method is endorsed by the U. S. Government and eminent men all over the United States. Beware of fake institutes. For further particulars address

A. W. ROBINSON,
 State Manager,
 For Keeley Institutes at Ripon and Waukesha, Wis.

How He Regarded Them.
 "These big sleeves," he began.
 "Well?" she said inquiringly.
 She knew that he had primed himself with some sharp remark, but she had learned that it eased his mind to make them and did not hurt her. So she led him on.
 "What about them?" she asked, as he hesitated.
 "These big sleeves," he said, when he had finally arranged the witticism to his satisfaction, "always make me think of the way people do up packages that won't bear inspection."—Chicago Evening Post.

The Force of Habit.
 On the day before the execution the keeper informs a doomed man that a visitor wishes to see him.
 "Do you know who he is?" asks the doomed man.
 "No."
 "Well, just ask him if he wants to collect a bill, and if he does, tell him to call day after to-morrow."—Texas Siftings.

A Recommendation.
 "Let's see," said Dawkins, "what would I better eat to-day?"
 "Our filet bearnaise is very nice," said the waiter.
 "Have you tasted it yourself?" asked Dawkins.
 "No, sir," replied the waiter, "but it costs you \$1.25, and at that price it should be excellent."—Harper's Bazar.

What Other Kind?
 "What a nasty smell burnt powder has!" said Johnny.
 "Powder?" exclaimed his elder sister, Miss Maud, looking up. "Why it hasn't any sm—O, you mean gunpowder!"
 And she turned a lovely, creamy shade of vermillion and became absorbed in her fashion magazine again.—Chicago Tribune.

Not a Mere Clerk.
 Wealthy Parent—What, engaged yourself to young Tapeater? Outrageous! The idea of a Van Junesberry marrying a mere store clerk!
 Daughter—But he isn't a store clerk now, papa. He is a gentleman of leisure.
 "Eh?"
 "Yes; he has been discharged."—N. Y. Weekly.

Breaking a Record.
 "Tommy," whispered his mother, as they sat down to dinner, "you mustn't say anything about that large mole on Dr. Fourthly's chin."
 And Tommy didn't. He is probably the first boy of the kind of whom history makes any mention.—Chicago Tribune.

Afraid of the Dark.
 "It's getting quite dark now," remarked Cholly, as they sat on the front piazza.
 "Yes," she answered, with a touch of scorn as she surveyed the small distance between them. "One might imagine that you were afraid of the dark."—Texas Siftings.

A Marked Man.
 "There goes a fellow who has a great pull," said the drummer.
 "Ah!" answered the visitor to town, with heightened interest: "one of your local politicians, probably?"
 "No," the drummer replied, with a drummer's rigid adherence to truth; "he's a barber."—N. Y. Recorder.

A Powerful Plea.
 He—Won't you let me have a kiss—now that I am going away for a day?
 She—If you can give any good reason why I should, I might think about it—possibly.
 He—I should like to establish a precedent.—Bay City Chat.

Unanswerable.
 A rolling stone gathers no moss, it is said.
 But the saying's repeated in vain
 To the youth who remarks, with a shake of his head,
 "What of that? The stone doesn't complain."
 —Truth.

IN PARIS.

Waiter—Shall I bring monsieur a demi-tasse?
 Wilkins (from Chicago)—Yes, and a small cup of coffee.—Truth.

He Knew the Sex.
 Higbee—I'll have to leave you, Mack. I've got to be at the Murray Hill by two o'clock.
 Mack—An engagement?
 Higbee—Yes; my wife said she would meet me there at one.—Bay City Chat.

Exactly What He Shot.
 "Hello; been hunting?"
 "Yep."
 "Shoot anything?"
 "Yep."
 "What?"
 "Gun."—Chicago Record.

He Didn't Have to Like It.
 Stern Father of the Girl—I saw you kiss my daughter as I passed the parlor awhile ago, and I want you to know I don't like it.
 Young Man—You may not, but I do.
 —Spare Moments.

First Real Confidences.
 "Now that we are married, Penelope, and have nothing to conceal from each other, how—"
 "I'm 29, George. How much did you give the preacher?"—Chicago Tribune.

Where They Fall Down.
 They're very, very masculine.
 But likely still to fall.
 When they try to look sardonic
 Upon a bargain sale.
 —Detroit Tribune.

Why He Waited.
 "I see that you have been buying a bicycle," he casually remarked, as they sat side by side on the sofa.
 "Yes."
 "Cash or installment?"
 "Two dollars a week," she admitted.
 And thus it was she unknowingly caused him to postpone his proposal for nearly a year.—Indianapolis Journal.

It Isn't Safe.
 Speak no evil of the absent
 For you never know, alack!
 Just when the slandered may return
 And make you take it back.
 —L. A. W. Bulletin.
